PRESS RELEASE

Mühldorf a. Inn, 04.09.2023

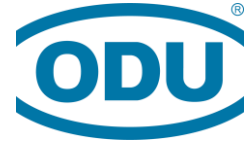

47 new trainees at ODU

Mühldorf a. Inn: 47 junior employees have started their training at ODU on 01.09.2023. The young people start in 13 different apprenticeships and four dual study programs.

Training manager Anna Edmaier is delighted: "At ODU, we value strong training. It is clear to us that we can only achieve sustainable company growth by bringing in our top performers of the future today. The fact that 47 young people have once again decided to pursue their professional future with ODU this year is a good signal for us that we are on the right track." The figures of the past few years prove this attitude: 173 trainees have successfully completed their training at ODU in the last 5 years.

The high-quality training at the successful and internationally leading manufacturer of connector systems takes place in modern training workshops and in the various specialist areas at the headquarters in Mühldorf am Inn. ODU offers varied, practical and professional training in order to prepare young professionals for everyday working life. Interesting projects, further education and training opportunities, an international exchange program, discounts and offers are part of the training package. The young people get a great education and thus a solid basis for their professional lives.

As qualified specialists, they ensure the sought-after product quality and have always been one of the cornerstones of the company. "For ODU, the employees and the self-trained junior staff have a high priority. They are the foundation for the company's success. The company appreciates this and offers all employees extensive benefits in a familiar, family atmosphere," Anna Edmaier knows from personal experience. You can find out more about the training and the working environment under career.odu-connectors.com.

ODU Group: global representation with perfect connections

The ODU Group is one of the world's leading suppliers of connector systems, employing 2,600 people around the world. In addition to its company headquarters in Muehldorf a. Inn (Germany), ODU also has an international distribution network, production and product development sites in Sibiu/Romania, Shanghai/China, Tijuana/Mexico and Camarillo/USA. ODU combines all relevant areas of expertise and key technologies including design and development, machine tooling and special machine construction, injection, stamping, turning, surface technology, assembly and cable assembly. The ODU Group sells its products globally through its sales offices in Austria, China, Denmark, France, Germany, Hong Kong, Italy, Japan, Korea, Romania, Sweden, UK and the US, as well as through numerous international sales partners. ODU connectors ensure a reliable transmission of power, signals, data and media for a variety of demanding applications including medical technology, military and security, automotive, industrial electronics, and test and measurement.
