## PRESS RELEASE

Muehldorf a. Inn, May 19, 2026

### ODU AT THE AUTOMOTIVE EXPO 2026 HIGH-CURRENT MEETS HIGH-VOLTAGE

When high-voltage and high-current signals come together in connectors, one thing matters above all else: Experience. With over 80 years of expertise, ODU is once again showcasing high-performance solutions for demanding applications at the **Automotive Testing Expo 2026** in **Stuttgart**.

#### **A broad portfolio for a wide range of requirements**

The product range extends from metal and plastic circular connectors in a wide variety of designs to modular systems for manual mating and automated docking. With the ODU-MAC® Black-Line mass interconnect solution, ODU also offers a particularly flexible and highly customizable interface.

#### **Focus on high-current and high-voltage applications**

For both modular rectangular connectors and circular connectors, ODU focuses specifically on high-current and high-voltage applications:

- The **ODU-MAC® Power Connector** is ideal for high-current applications, such as battery storage or testing.
- For high-voltage applications, there is a version of the **ODU MEDI-SNAP®** rated for up to 1.6 kV.

ODU thus offers tailor-made solutions for demanding test and industrial applications.

Visit us at the Automotive Testing Expo from **June 23 to 25** in **Stuttgart, Hall 1, Stand 1742**.

Our experts look forward to speaking with you in person!

### **ODU Group: global representation with perfect connections**

The ODU Group is one of the world's leading suppliers of connector systems, employing 2,800 people around the world. In addition to its company headquarters in Muehldorf a. Inn (Germany), ODU also has an international distribution network, production and product development sites in Sibiu / Romania, Shanghai / China, Tijuana / Mexico and Camarillo / USA. ODU combines all relevant areas of expertise and key technologies including design and development, machine tooling and special machine construction, injection, stamping, turning, surface technology, assembly and cable assembly. The ODU Group sells its products globally through its sales offices in Austria, China, Denmark, France, Germany, Hong Kong, Italy, Japan, Korea, Sweden, UK and the US, as well as through numerous international sales partners. ODU connectors ensure a reliable transmission of power, signals, data and media for a variety of demanding applications including medical technology, military and security, automotive, industrial electronics, and test and measurement.
